SUMMARY

Front-End Developer with a strong foundation in HTML, CSS, JavaScript, and React.js, committed to maintaining a clean and reusable code base. Passionate about continuous learning and eager to apply my skills in UI development, responsive web design, and modern web technologies to create user-friendly and dynamic web applications. Seeking a junior-level position at a forward-thinking company where I can contribute to impactful projects, expand my knowledge, and grow as a developer.

EXPERIENCE

Front-End Developer

Intern2Grow - Internship

 Jun 2024 - Jun 2024 - 1 mo

 Remote

- Completed a comprehensive virtual internship that provided hands-on experience across multiple roles. Developed responsive web pages, fixed frontend bugs, implemented new features, and enhanced user interaction using modern web technologies. This experience significantly improved my skills in UI development, JavaScript, and React.js.

PROJECTS

Shop E-Commerce

 [Source Code](#)

 [Demo](#)

Developed using React, TypeScript, Redux Toolkit, React-Hook-Form and Bootstrap.

- **User Authentication:** Implemented user registration and login functionality.
- **Cart and Wishlist:** Created functionality for adding products to the cart and wishlist, allowing users to manage their shopping preferences.

- **State Management:** Utilized Redux Toolkit to manage global state efficiently, ensuring seamless user interactions.
- **API Integration:** Integrated with backend APIs to fetch and display product data dynamically.
- **Performance Optimization:** Implemented performance improvements to ensure fast loading times and smooth user experience.

Note-Taking App (Notekeeper)

 [Source Code](#)  [Demo](#)

Developed using HTML, CSS and JavaScript.

- **CRUD Functionality:** Implemented create, read, update, and delete operations for notes.
- **Local Storage:** Utilized local storage for saving and retrieving notes.

Stock Media Platform (Pixstock)

 [Source Code](#)  [Demo](#)

Developed using HTML, CSS, JavaScript and Pexels API.

- **API Integration:** Integrated Pexels API to fetch and display high-quality media content.
- **Local Storage:** Utilized local storage for saving and retrieving notes.
- **Implemented Skeleton Loading:** Added a skeleton screen for a smooth loading experience.

GitHub App

 [Source Code](#)  [Demo](#)

Developed using HTML, CSS, JavaScript and GitHub API.

- **Integrated GitHub API:** Accessed and displayed GitHub data using the GitHub API.
- **User Search:** Developed an efficient search feature for GitHub users.
- **Implemented Skeleton Loading:** Added a skeleton screen for a smooth loading experience.
